National Sanskrit University, New Delhi, had said that today there is such an easy way to get an education that we do not need to go anywhere to get an education. To take education, we can get education from the teacher just sitting at home from the online mood.

In today’s time, facilities like the internet are available in all the homes. Online education is proving to be very effective in the time of Corona. Now a days online education is becoming very prevalent everywhere whether it is village or city.

**Prof. M. Pareek** former Head & Dean, deptt. Of Education, University of Rajasthan, Jaipur Raj.) highlighting the importance of online education, described

the challenges for teachers said that online learning requires teachers to have a basic understanding of using digital forms of learning. However, this is not the case always. Very often, teachers have a very basic understanding of technology. Sometimes, they don't even have the necessary resources and tools to conduct online classes.

### **The Key Note Speaker**

**Prof. Sanjay Sharma**, Dr. Hari Singh Gauor University, Sagar, (M.P.) had said that in online education, we do not have to fear like a classroom that we have to be alert and make notes with the teacher.
